

The world has changed ...

so your business must change as well, **VT ONLINE ORDERING** makes it easy.

### TAKE BACK VALUABLE ONLINE ORDERING REVENUE

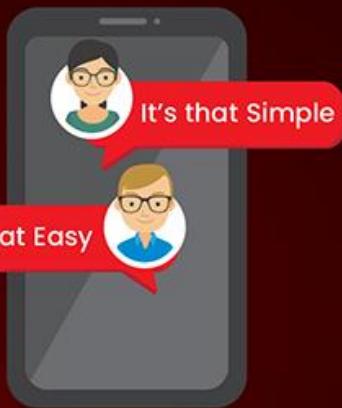

Money that's being taken from you via national online delivery services. Let us show you how to promote your **VERY OWN** online ordering portal and keep 100% of the hard earned profit where it belongs.

Take out, delivery and curbside pickup is easy with VT Online ordering.. Orders go from your website directly to the kitchen seamlessly. Payments are made when they order so this saves valuable time. No more missed or inaccurate orders. Also, minimise expensive staff resources by converting phone orders to ONLINE orders, saving you money, while increasing efficiency.

- Change the menu right from your pos.
- Add daily specials or make any changes on the fly.
- Delete items you may run out of

VT online ordering can automatically text your customer when their order is ready for pickup..

Keep your guests and employees safe with contactless payments, reducing the risk of COVID-19 contamination.

## Reservations?

We have that covered as well, moving forward reservations and social distancing will play a key roll in your business now more than ever, clients can make or change reservations right from your online ordering portal, you'll see it instantly on your pos.

UPCOMING updates will include... order and pay at the table **RIGHT FROM THE CUSTOMERS PHONE OR MOBILE DEVICE**. When the customer sits at the table they scan a QR code and orders show up directly on the pos and go directly to the kitchen. Clients can view loyalty points and giftcard balances anytime from the online ordering portal.

## VT Online ordering

will change the way you do business,

Reach customers where they are most and most comfortable, **ONLINE**
